DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11 and 22, drawn to a substantially pure MASP-2 polypeptide and a composition comprising said polypeptide, classified in class 530, subclass 350.
 - II. Claim 28, drawn to a method for treating patients deficient in MASP-2 by administering to the patient MASP-2 polypeptide, classified in class 514, subclass 2.
2. The inventions are distinct, each from the other because of the following reasons:

Group I is distinct from group II. Group I and group II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (M.E.P.. § 806.05(h)). In the instant case the MASP-2 polypeptide can be used to produce antibody specific to MASP-2 polypeptide, purification of the antibody and can be used for protein binding assay. They have different classifications and require separate search. Thus, group I and II are patentably distinct from each other.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter and as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1633

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
